Summary

Full Stack Developer with 3+ years of experience building scalable web applications using Laravel, React, and cloud technologies like AWS. Experienced in e-commerce, real-time tracking, and media platforms. Passionate about solving problems through code.

Skills

Frontend :: React ⏐ Tailwind CSS ⏐ CSS ⏐ Javascript ⏐ Threejs

Backend:: Laravel ⏐ livewire ⏐ Expressjs ⏐ Python ⏐ Flask ⏐ Firebase

Database:: MySQL ⏐ Mongodb ⏐ Postgresql

Tools:: Firebase ⏐ AWS ⏐ EC2 ⏐ Lamda ⏐ Azure ⏐ Ubuntu

Projects

Godrej GoodKnight Activation Tracking Application
Laravel (Web Dashboard), MySQL, HTML/CSS, JavaScript, jQuery, React, Capacitor.js, Laravel REST API
- Developed mobile app using **React & Capacitor.js**
- Built RESTful APIs and admin panel using **Laravel & MySQL**
- Implemented **real-time location tracking** for brand promoters
- Enabled **sales logging and reporting** system
- Designed **responsive web dashboard** with HTML, CSS, JS, jQuery
- Ensured smooth **API communication** between app and backend
- Used for tracking **sales of Godrej Good Knight vaporizer coils**

A Canadian Based Surrogacy Agency Website and Admin Dashboard:
Nextjs and laravel project
- Developed and deployed **FindSurrogate.com** 🔗 , a full-stack surrogacy agency platform that connects surrogates, intended parents, and agencies across Canada.
- Designed an intuitive **user dashboard and admin panel** to streamline profile management, matching, and communication between users.
- Integrated **secure user authentication** and multi-role access for surrogates, parents, and agencies using **Laravel & PHP** backend.
- Built responsive and accessible UI with **Bootstrap CSS, Tailwind CSS, HTML5**, and **JavaScript** for an optimized user experience.

AjwanShop A E-commerce Platform:
Laravel Full Stack Project
- Built and deployed **AjwanShop.com** 🔗 , a full-featured e-commerce platform for a Bangladeshi client using **Laravel (PHP)** and modern front-end tools.
- Implemented **product categorization, cart, checkout, and search functionalities** for diverse product types, including clothing, perfumes, and gadgets.

- Developed **responsive UI** using **Tailwind CSS**, **Bootstrap**, and **DaisyUI** to ensure a smooth shopping experience across devices.
- Integrated **MySQL** database for product inventory, user management, and order tracking.
- Applied **role-based access** for customers and admins, including order management and product uploads.

Bkash Live Concert Streaming App
Laravel and React Project
- Developed and deployed a **live concert streaming platform** for **bKash**, enabling users to watch events online after secure payment integration via the bKash gateway.
- Built a **payment system** where users could pay 10 BDT and instantly access the concert livestream, ensuring seamless transactional flow.
- Designed an intuitive **admin dashboard** to manage concerts, view analytics, and update content in real-time.
- Implemented the frontend using **React.js**, **Tailwind CSS**, **DaisyUI**, and **Vite** for a fast and responsive UI.
- Powered the backend with **Laravel (PHP)** and **MySQL** for stable data management and business logic handling.

Professional Experience

XR Interactive   04/2023 – present
Full Stack Developer   Dhaka, Bangladesh
- Developed interactive dashboards and backend APIs for multiple XR
projects using Laravel and React
- Collaborated with design and 3D teams to integrate real-time features
- Deployed applications to AWS EC2 and configured CI/CD pipelines

Education

National University   Dhaka, Bangladesh
Computer Science And Engineering
